

REGULAR MEETING OF THE BOARD OF DIRECTORS OF THE TUSCAN WATER DISTRICT

Wednesday, October 16, 2024; 9:00 a.m.

Chico State University Farm, 311 Nicholas C Schouten Lane, Room 104, Chico, CA 95928

Any materials related to an item on this Agenda are available for public inspection online at <https://www.tuscanwaterdistrict.org/>

AGENDA

1. Call to Order, Roll Call, and Pledge of Allegiance.
2. Consider Meeting Minutes for the TWD Board Meeting on October 2, 2024, and take appropriate action.
3. Consider recent invoices and take appropriate action.
4. Consideration and Appropriate Action Regarding Engineer's Report, Setting Public Hearing, and Ballot Authorization for Proposition 218 Assessment Process.
5. Consideration and Possible Action Regarding Support Letter for Rock Creek Reclamation District
6. Board members – Requests for future agenda topics & announcements.
7. Public Comment: Members of the public may address the Board at this time on any matter not already listed on the agenda. The Board reserves the right to limit each comment to three minutes per speaker. The Board cannot take any action at this meeting on requests made under this section of the agenda.

NOTES

In compliance with the American with Disabilities Act, if you need disability-related modifications or accommodations, including auxiliary aids or services, to participate in this meeting, please email info@tuscanwaterdistrict.org by Noon on Tuesday prior to this meeting.

Written material related to an item on this agenda that is distributed less than 72 hours prior to this meeting to at least a majority of the members of the legislative body will be available for inspection during the meeting at North Valley Agricultural Services, 4936 Bell Road, Chico, CA 95973.

Written material distributed during a public meeting will be available for public inspection at the meeting, if prepared by the District or a member of its legislative body, or after the meeting if prepared by some other person.

ITEM 2

MINUTES OF THE TUSCAN WATER DISTRICT

Special Meeting of Wednesday, October 2, 2024; 9:00 a.m.

Chico State University Farm, 311 Nicholas C Schouten Lane, Room 104, Chico, CA 95928

MEETING MINUTES

The meeting was called to order at 9:02 a.m.

Roll Call:

- Board members present: Andrew Mendonca, Rayme Antonowich, Jim Paiva, Rich McGowan, Craig Knight, Brian Mori, Bill Chance
- Absent: Todd Turley, Steve Koehnen
- Public: Kamie Loeser, Steve Lucas, Danny Kerns, Emily Alma, Joe Hughes, Tovey Giezentanner

Item 2 – Meeting Minutes for the TWD Board Meeting on August 21, 2024.

- Action requested: Review and take appropriate action.
- Board comment: None
- Public comment: None
- Board Action: Voted 6-0 to approve: Knight motion, McGowan second.

Item 3 – Financial Issues

- Action requested: Review invoices and take appropriate action
- Board discussion: Rayme inquired about the financial status, asking: “If we approve these invoices, where do we stand in terms of funding the remaining activities, including the Prop 218 process, relative to our approved budget?” Staff provided a response and directed board members to Item 3 in the Agenda Packet.
- Public comment: None
- Board Action: Voted 7-0 to approve all items
 - District Counsel – Antonowich motion, Paiva second.
 - Staff – Mendonca motion, Antonowich second
 - Provost & Pritchard – Knight motion, Chance second

Item 4 – Presentation and Discussion of the Draft Engineer’s Report for the Proposed Proposition 218 Special Benefit Assessment

- Action requested: Receive the Draft Engineer’s Report, invite public comment, and provide direction or feedback to staff. No formal action was requested.
- Staff Report: Staff introduced the draft Engineer's Report and provided an overview of key issues, including:
 - The LAFCO condition requiring TWD to enact a revenue-generating measure of at least \$445,600/year on all land within the District, with the stipulation that failure to enact this measure would result in the District’s dissolution.
 - A 3.5% annual increase for General and Administrative Expenses during the first five years.
 - After five years, the maximum special benefit assessment will remain unchanged unless further approval is obtained through a new Prop 218 process.
 - The TWD Board’s discretion to set the annual special benefit assessment rate lower than the approved maximum rate.
 - An overview of Prop 218 requirements for passing a special benefit assessment.

ITEM 2

- The District's anticipated annual expenses, including General and Administrative Expenses, Litigation Support, Technical Support, Lobbying, Funding Advocacy, and a Reserve.
- A summary of the Five-Year Projected Budget.
- An outline of the purpose for the special benefit assessment and specific and direct special benefits to each landowner within the District, such as Local Control, Representation, Funding Advocacy, and Groundwater Rights Protection.
- An overview of the Assessment Structure and Proposed Assessment Roll.
- The necessary next steps for the Board, including approving the Engineer's Report, setting a public hearing, and authorizing a Proposition 218 Mailed Ballot Election.
- Board Comment:
 - McGowan – is a 3.5% inflation rate normal or common? Loeser – Vina GSA has a 3% inflation rate. Lucas – This is common with other special district budgets.
 - Antonowich – What legal hurdles remain? Hughes – legal challenges typically come from procedural mistakes.
 - Knight – to confirm, a LAFCO condition requires that we pass a revenue measure for at least \$445,600 or more up to \$10 per acre, but the Board can decide to assess less than the maximum assessment rate. Response: Yes.
 - Board members asked for clarification re: increases to the budget after 5 years.
 - Board members asked for clarification regarding the Maximum Assessment Rate Schedule and how votes would be calculated for counting purposes.
- Public Comment:
 - Emily Alma:
 - Can I get a copy of the Draft Engineer's Report? Response – yes, here's a hard copy. Also the report is online at the website.
 - Some domestic well owners are confused with the competing Prop 218 assessments. Consider adding info into the ballot packet that differentiates between the Vina GSA Prop 218 fee and TWD special benefit assessment.
 - Kamie Loeser & Rayme Antonowich: Perhaps a one-pager in the ballot packet would help.
 - Danny Kerns: Confirmed that the 3.5% inflation rate only applies to the General and Administrative category of the budget. The inflation rate is not applied to other categories, including litigation support, technical support, funding advocacy, and the reserve.

Item 5 – Board member requests for future agenda topics & announcements.

- The next board meeting will be on October 16, 2024, at 9:00 a.m.
- Knight: Question to Joe – please provide some feedback on lawsuits in the Central Valley (Kings, Kern, Tulare)

Item 7 – Public Comment. None.

Meeting adjourned at 9:55 a.m.

STAFF REPORT – ITEM 4

TO: Board of Directors, Tuscan Water District

FROM: Tovey Giezentanner, General Manager

DATE: October 16, 2024

SUBJECT: Consideration and Appropriate Action Regarding Engineer’s Report, Setting Public Hearing, and Ballot Authorization for Proposition 218 Assessment Process

Background:

At the Special Board Meeting on October 2, 2024, the Draft Engineer’s Report was presented to the Board for public review and comment. No formal action was taken at that time. The Final Engineer’s Report is now ready for Board approval. This report outlines the proposed assessment and its associated financial impacts, which are key components in moving forward with the Proposition 218 process. Approval of the report is a necessary step to proceed with the public hearing and ballot election process required under Proposition 218.

Recommended Actions:

1. **Accept and Approve the Final Engineer’s Report** prepared by Provost & Pritchard, outlining the proposed assessment.
2. **Set a Public Hearing** for January 15, 2025, at 9:00 a.m., in compliance with Proposition 218, allowing for public comment on the proposed assessment.
3. **Authorize the Mailing of Ballots** for the Proposition 218 election to property owners within the District, ensuring adequate time for ballot return prior to the Public Hearing.
4. **Review Ballot Packet Materials** (including drafts of the Public Notice, Official Ballot, Sample Parcel List, Instructions, Outgoing Envelope, and Reply Envelope) and direct staff, in collaboration with legal counsel, to finalize the materials.

The approval of these actions will ensure the District’s compliance with the legal requirements under Proposition 218, moving the process forward toward a successful election.

REPORT SUMMARY

The Tuscan Water District (TWD or District) is a California water district recently formed to evaluate, fund, implement, and oversee projects and actions to achieve groundwater sustainability in the Vina and a portion of the Butte sub-basins. TWD also represents landowners for the purpose of working with the County of Butte; Butte County Water Commission; the Vina, Butte, and Rock Creek Reclamation District Groundwater Sustainability Agencies (GSAs); and other state and local agencies in the administration of Groundwater Sustainability Plans (GSP).

TWD seeks approval from landowners within its boundaries to implement an annual, land-based special benefit assessment, designed to generate sufficient revenue for ongoing district operations. This special benefit assessment will help ensure that TWD can perform its essential functions of sustainably managing groundwater resources under the Sustainable Groundwater Management Act (SGMA) thereby preserving and protecting groundwater resources for the benefit of all landowners within the TWD.

District Formation and Special Benefits

TWD encompasses predominantly prime agricultural land, where the landowners rely heavily on groundwater for irrigation and domestic water supply. Prior to the formation of TWD, no single entity had the legal authority or collective support necessary to pursue vital groundwater management projects and advocate for long-term sustainability.

With the establishment of TWD, each parcel within the District receives specific and direct special benefits, including:

- **Local Control:** A landowner-governed special district with exclusive authority to pursue and implement surface water projects, groundwater recharge initiatives, and demand reductions strategies aimed at achieving long-term groundwater sustainability for the Vina and Butte sub-basins.
- **Representation:** TWD landowners are represented in collaboration with Butte County, the Vina, Butte, and Rock Creek Reclamation District GSAs, and other state and local entities in the administration of GSPs.
- **Funding Advocacy:** The District advocates for TWD landowners by securing grants and other funding from local, state, or federal sources to support surface water projects, groundwater recharge initiatives, and demand reduction efforts, and other mitigation strategies – ultimately reducing the overall cost of SGMA compliance.
- **Protection of Groundwater Rights:** TWD defends landowners' access to groundwater against external threats, such as regulatory challenges and potential encroachments on groundwater rights.

These benefits justify the proposed special benefit assessment under Proposition 218, which allows local agencies to levy assessments for specific services that provide special benefits. Implementing a special benefit assessment for lands within the District ensures that revenue collection is aligned with the actual cost of providing district services, and it distributes the financial responsibility equitably among landowners.

Proposed Special Benefit Assessment and Financial Needs

The proposed special benefit assessment is a dedicated charge aimed at recovering the District's fixed expenses. Since TWD does not currently have a revenue stream, this Report outlines the implementation of a special benefit assessment to ensure that the District can cover its operational costs.

According to the Butte County Local Agency Formation Commission's (LAFCo) Resolution No. 18 2022/23 approving the formation of the District,

“The continuing operation of the District shall require that the TWD enact a special assessment or other revenue measure generating sufficient annual revenue for the ongoing operation of the District in an amount not less than \$445,600/year on all land within the District receiving a special benefit or property-related service. If the revenue measure is not successfully enacted by the District within one year of the recording of the certificate of completion, pursuant to G.C. 56886(o) the Water District shall be dissolved.”
(10)

The proposed special benefit assessment rate will allow the District to recover its fixed costs and maintain financial stability. The maximum assessment rate for Year 1 of \$6.45 is based on the District's anticipated expenses and would be billed to landowners through Butte County's tax rolls. The tax roll, which is aligned with the County's fiscal year, would include the special benefit assessment starting with the 2025 fiscal year.

Due to inflation, the general and administrative expenses for the District are anticipated to increase by 3.5% annually from years 2026 through 2029, and the maximum assessment rate would rise accordingly. While the District may choose to charge a lower assessment rate than the maximum assessment rate in any given year, it cannot exceed the maximum rate unless a new Proposition 218 election is held to authorize an increase. Beyond 2029, the maximum special benefit assessment rate will remain unchanged unless further approval is obtained through another Proposition 218 election. The TWD Board of Directors will have the discretion to set the annual special benefit assessment rate, but it will not exceed the approved maximum rate.

District Special Benefit Assessment Proposition 218 Process

In accordance with LAFCo's formation resolution for the formation of TWD, the District is required to establish a special benefit assessment or other revenue generating mechanism sufficient to fund the District's ongoing operational costs, which must total no less than \$445,600 per year. The process for implementing this assessment follows the guidelines of Proposition 218, as outlined in Article XIII D of the California Constitution, and the Proposition 218 Omnibus Implementation Act (Government Code sections 53750 and subsequent provisions). These laws set forth the mandatory procedures that local agencies must follow in order to levy specific assessments on properties. The District has chosen to adhere to Proposition 218 not only because it is a legal requirement but also because it ensures transparency by fully informing landowners and allowing them to have a direct say in the proposed assessment.

Once the TWD Board of Directors determines the necessity of the special benefit assessment, the District must ensure that the charges correspond with the benefits provided by the District. The assessments will be allocated based on the acreage affected within the TWD. This Engineer's Report evaluates the benefits conferred upon parcels within the District's boundaries, specifically regarding the pursuit and implementation of projects; representation of landowners in collaboration with local, state, and federal agencies; advocacy on behalf of landowners in securing grants and other funding sources; and defense of landowners' access to groundwater.

Following the Board's acceptance of this report, a public hearing will be held, during which all landowners affected by the proposed special benefit assessment may participate. During the public hearing, the Board will address District landowner comments and questions, ensuring all concerns are considered.

In November 2024, the District will compile the roll of the landowners subject to the assessment. At that time, notices and ballots will be mailed to the affected landowners, informing them of the proposed assessment and giving them the opportunity to vote. The election will conclude with a public hearing in January 2025, where the votes will be tallied. The votes will be weighted based on the financial obligation per assessable acre, with a majority of weighted votes in favor of the assessment required for approval.

If the majority of weighted votes support the proposed assessment, the Board will be authorized to levy the assessment up to the maximum rate, as specified in the Maximum Assessment Rate Schedule. In the event of a majority protest (i.e., the weighted majority of returned ballots oppose the assessment), the Board will not proceed with the assessment.

Following a favorable majority vote, the Board will have the authority to implement the approved assessment rate at its meeting in February 2025. While the Board will be authorized to levy the assessment up to the maximum rate specified in the Maximum Assessment Rate Schedule, it may choose to levy an amount lower than the maximum. The public hearing in January 2025 will offer a final opportunity for public input before the votes are tallied, and the assessment rate, whether at the maximum or a reduced level, will be formally adopted at the subsequent Board meeting.

1. PURPOSE OF THE REPORT

1.1. General

This Report has been prepared in accordance with state law to outline the equitable distribution of special benefit assessments to be levied on each parcel within the District. As specified in the District's LAFCo formation resolution, the District is required to establish a special benefit assessment or other revenue generating mechanism to ensure adequate funding for ongoing operational expenses.

The District now proposes to implement a land-based assessment to establish a stable revenue stream for covering its fixed operational costs. This assessment would take effect starting in Butte County's fiscal year 2025.

1.2. Proposition 218 Requirements

In November 1996, California voters approved Proposition 218, the "Right to Vote on Taxes Act," which added Article XIII D to the California Constitution. Proposition 218 establishes specific requirements for the imposition of assessments, fees, and charges by local agencies.

Under Proposition 218, TWD must identify all parcels within the District that will receive a special benefit for which the proposed assessments will be levied. A "special benefit" is defined as "a particular and distinct benefit over and above general benefits conferred on real property located in the district or to the public at large." In the case of TWD, primary special benefits provided include the pursuit and implementation of projects; representation of landowners in collaboration with local, state, and federal agencies; advocacy on behalf of landowners in securing grants and other funding sources; and defense of landowners' access to groundwater.

Before a local agency can levy new or increased assessments subject to Section 4 of Proposition 218, the following procedures are required:

- 1. Preparation of an Engineer's Report:** A detailed report must be prepared by a registered engineer certified by the State of California, justifying each assessment.
- 2. Notice to Property Owners:** The record owner of each parcel identified for assessment must receive written notice, detailing the reason for the assessment and the total charges associated with their parcel.
- 3. Public Hearing Notice:** The notice must specify the time, date, and location of the public hearing on the assessment and include a ballot, outlining the voting process and providing arguments for and against the assessment.
- 4. Public Hearing:** A public hearing must be conducted no less than 45 days after mailing the notice, during which protests will be considered and ballots will be tabulated.
- 5. Ballot Requirement:** To approve the assessment, a majority of the weighted financial obligation (based on financial obligation per assessable acre) of the returned ballots must be in favor of the assessment.

1.3. Revenue Objectives

As mentioned, to meet its ongoing operational financial needs, TWD proposes to implement a land-based assessment to generate a reliable revenue stream. Approval of this special benefit assessment requires the consent of landowners holding the majority of the weighted value of deeded parcels within the District, in compliance with Proposition 218.

For Year 1, the District anticipates operating expenses of approximately \$620,600, covering essential costs such as staffing, office expenses, district counsel, litigation support, technical expertise, lobbying efforts, and a small reserve fund. As a result, the District requires a stable revenue source to maintain operations, consistent with the financial expectations established during its formation.

The proposed land-based special benefit assessment of \$6.45 per acre is designed to fund the District's fixed costs. Proposition 218 allows the District to levy an assessment sufficient to cover 100% of the property related service provided to landowners within the District. At a minimum, this Report identifies the fixed costs necessary to keep the District operational.

Approval of this Proposition 218 election would authorize the maximum annual land-based special benefit assessment rates, which the Board of Directors may implement. The Board retains the discretion to levy assessments at rates lower than the maximum authorized in any future year without requiring an additional Proposition 218 election.

2. DISTRICT BACKGROUND INFORMATION

2.1. General

TWD is a California Water District established to provide local landowners with enhanced control over the management of groundwater resources within the District's boundary. Formed under the provisions of the California Water Code, Section 34000 et seq., TWD operates as a locally governed special district. It is governed by a nine-member Board of Directors, elected by district landowners. The Board sets policy, and under their direction, the General Manager implements strategies, oversees district operations, and manages day-to-day administrative activities.

2.2. Location

TWD encompasses approximately 97,625 acres of predominately prime agricultural land in northwest Butte County, California, situated in the northern Sacramento Valley. The District is bordered by the Sacramento River to the west, the Tehama County line to the north, and State Route 99 to the east. The southern boundary extends to the northern border of the Western Canal Water District, including lands west and south of the City of Chico. The District's boundaries have been established to include areas reliant on groundwater, with a focus on the Vina Subbasin. A map of the District is provided in [Figure 1](#).

2.3. District Background and Purpose

TWD was formed in response to the need for local groundwater-dependent landowners to have a stronger role in managing groundwater resources, particularly in the Vina Subbasin. Prior to its formation, this region had no subbasin-wide special district with the authority to plan, fund, and implement projects to address groundwater sustainability under SGMA. TWD's purpose is to collaborate with local and state agencies to pursue water supply, recharge, and demand reduction solutions; generate grant funding for projects aligned with the Vina GSP; and defend landowners' access to groundwater against external threats and regulatory challenges.

The agricultural land within the District predominantly consists of permanent crop production, such as almonds and walnuts, which rely heavily on groundwater for irrigation. The declining groundwater levels in the Vina Subbasin and constantly evolving regulatory landscape make it essential for landowners to actively participate in groundwater management efforts. TWD provides a governance structure to ensure landowners have representation and input into decisions affecting groundwater sustainability.

2.4. Current Operations

TWD was officially formed on February 1, 2024. Currently, the District is focusing on launching its operations, ensuring compliance with various LAFCo conditions of approval, and establishing a stable revenue stream through the proposed special benefit assessment to fund its activities. The District is also in the process of entering into Memoranda of Understanding (MOUs) with the Vina, Rock Creek Reclamation District, and Butte County GSAs. These MOUs will further formalize TWD's relationship with these

GSA's and support the implementation of the Vina GSA's GSP and advancing groundwater sustainability within the District's boundaries.

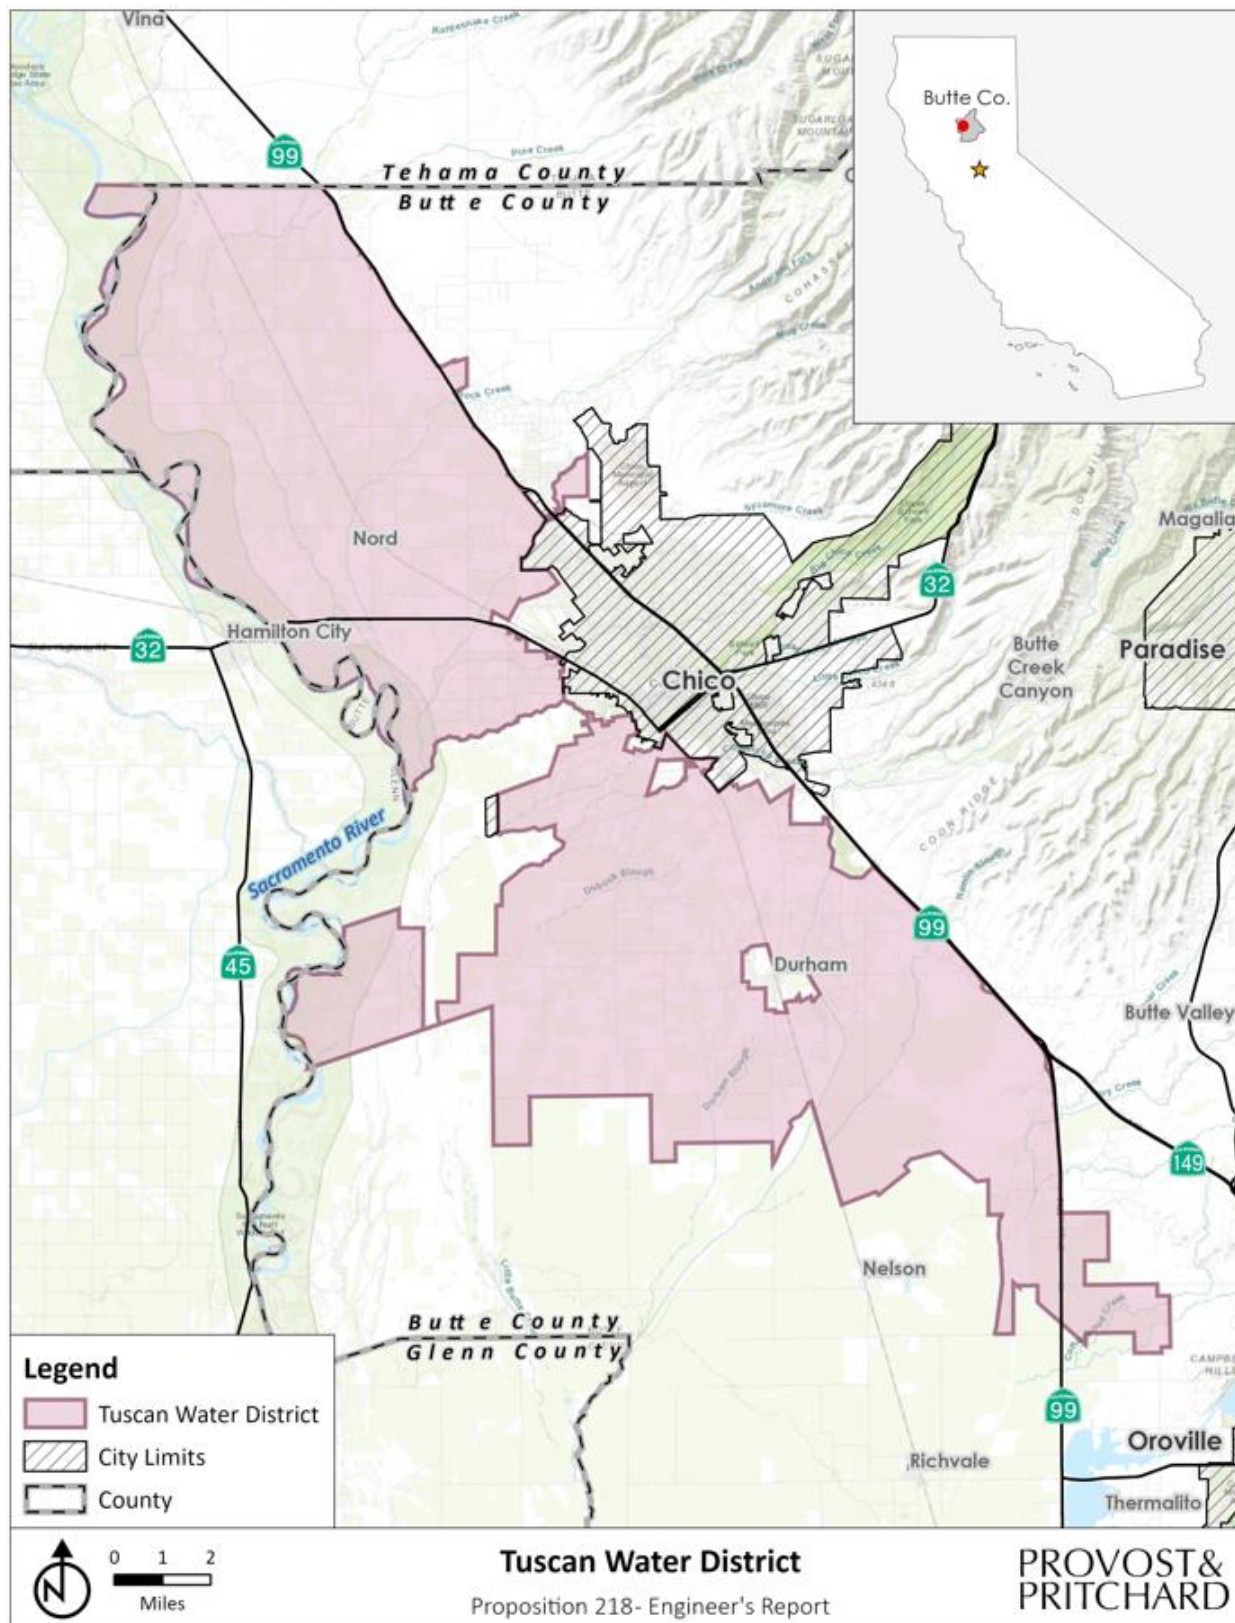

Figure 1: District Location Map

3. DISTRICT FINANCIAL INFORMATION

This section outlines the District's annual expenses and provides an analysis to determine the total fixed costs that will be recovered through assessments.

3.1. Annual District Expenses

The following describes the major categories of expenses that contribute to the District's overall budget. This information provides the context within which the assessment would fit within the existing budget structure. The District's primary expenses include staffing, office-expenses (office lease, supplies, and memberships and subscriptions, etc.), and external support (such as legal support, technical support, and lobbying and funding advocacy). Funding these costs via assessments would allow the District to continue to operate. The assessments would serve as the source of funding for the District. The categories of expenses that are presented below are the same as those in the District's approved budgets, and TWD's five-year projected budget is presented in [Table 1](#) below.

3.1.1. General and Administrative Expenses

General and Administrative Expenses cover the essential costs associated with the day-to-day operations of TWD. These expenses ensure that the District functions efficiently and effectively in serving the landowners' interests. Key components include staff salaries, office operations, utilities, insurance, legal compliance, and other overhead costs necessary for the administration of District activities.

Benefits to Landowners:

- **Efficient Management:** Professional administration ensures that District initiatives, such as groundwater management projects and sustainability programs, are planned and executed effectively.
- **Regulatory Compliance:** Administrative functions ensure adherence to local, state, and federal regulations, protecting landowners from potential legal issues and penalties.
- **Communication and Transparency:** Administrative staff facilitate clear communication between the District and landowners, providing updates on projects, meetings, and opportunities for involvement.
- **Financial Oversight:** Proper management of finances, including budgeting and auditing, ensures that funds are used responsibly, maximizing the benefits to landowners.
- **Formation Cost Reimbursement:** This item also covers the equitable reimbursement of costs incurred during the establishment of TWD, which includes legal, engineering, and administrative expenses essential for forming the District. By reimbursing these costs, the District ensures that all landowners who benefit from TWD's services contribute fairly to its foundational investments. This reimbursement is directly linked to the special benefits of local control, enhanced representation, and effective groundwater management provided to each assessed property.

Connection to Special Benefits:

By covering General and Administrative Expenses, TWD maintains the infrastructure necessary to exercise local control and provide representation. Efficient administration supports the implementation of projects and initiatives that directly benefit landowners, aligning with the District's commitment to achieving long-term groundwater sustainability.

3.1.2. Litigation Support

Litigation Support funds are allocated to protect the District and its landowners' legal interests concerning District actions, groundwater rights, and other related matters. This budget covers legal fees, court costs, expert witness fees, and other expenses associated with legal actions or defenses necessary to safeguard access to groundwater resources.

Benefits to Landowners:

- **Protection of Groundwater Rights:** Legal support is critical in defending against external threats, such as regulatory changes or disputes that could infringe upon landowners' groundwater access.
- **Collective Strength:** By pooling resources, the District can mount a more robust legal defense than individual landowners could achieve on their own.

Connection to Special Benefits:

Litigation Support directly contributes to the protection of groundwater rights, a core benefit identified for TWD landowners. Ensuring legal defense capabilities reinforces the District's role in defending landowners against potential overreach or new regulations that could adversely affect groundwater access, thereby maintaining the long-term viability of agriculture in the region.

3.1.3. Technical Support

Technical Support encompasses the professional services required to plan, design, and implement groundwater management projects, surface water initiatives, and sustainability measures. This includes hiring engineers, hydrologists, environmental consultants, and other experts necessary to develop and execute effective water management strategies.

Benefits to Landowners:

- **Expertise in Project Development:** Technical professionals provide the knowledge and skills needed to design projects that enhance water availability and sustainability.
- **Data-Driven Decision Making:** Access to accurate data and analyses ensures that projects are effective and aligned with best practices.
- **Regulatory Compliance:** Technical support ensures that projects meet environmental regulations and obtain necessary permits, avoiding delays and legal complications.
- **Innovation and Efficiency:** Leveraging technical expertise can lead to innovative solutions that maximize water resources while minimizing costs.

Connection to Special Benefits:

Technical Support is integral to achieving local control over water resources by enabling the District to pursue and implement surface water projects, groundwater recharge

initiatives, and demand reduction strategies. This support enhances the District's capacity to execute critical sustainability projects that provide direct benefits to landowners.

3.1.4. Lobbying and Funding Advocacy

Lobbying and Funding Advocacy funds are dedicated to securing financial resources and influencing policy decisions that benefit TWD and its landowners. This includes engaging with local, state, and federal agencies, legislators, and grant programs to obtain funding and favorable regulatory outcomes.

Benefits to Landowners:

- **Grant Acquisition:** Proactively seeking grants and external funding reduces the financial burden on landowners for implementing sustainability projects.
- **Policy Influence:** Advocacy efforts can result in policies and regulations that are more favorable to the District's interests.
- **Cost Savings:** Successful lobbying can lead to reduced compliance costs and access to resources that might otherwise be unavailable.
- **Enhanced Representation:** Ensures that the specific needs and concerns of TWD landowners are heard and considered at all levels of government.

Connection to Special Benefits:

Lobbying and Funding Advocacy provides a special benefit that positions the District to manage financial responsibilities under SGMA more effectively. By reducing the overall cost of compliance and securing resources for critical projects, this budget item enhances the District's ability to serve landowners' long-term water interests.

3.1.5. Reserve

The Reserve fund is established to provide financial stability and flexibility for the District. It serves as a contingency for unforeseen expenses, emergencies, or opportunities that may arise, ensuring that TWD can respond effectively without compromising ongoing operations.

Benefits to Landowners:

- **Financial Security:** A reserve ensures that the District can maintain services during revenue fluctuations or unexpected costs.
- **Emergency Response:** Provides immediate funds to address urgent issues affecting groundwater access or sustainability.
- **Future Planning:** Enables the District to take advantage of opportunities for new projects or initiatives that benefit landowners.
- **Risk Management:** Mitigates financial risks associated with litigation, regulatory changes, or environmental events.
- **Formation Cost Reimbursement Allocation:** A portion of the Reserve is allocated for the reimbursement of formation costs. This allocation promotes financial equity among landowners and supports the District's ability to maintain sustainable operations. By setting aside reserve funds for this purpose, TWD reinforces its commitment to

providing ongoing special benefits, including funding advocacy and protection of groundwater rights, to all properties within the District.

Connection to Special Benefits:

The Reserve fund underpins all the special benefits provided by TWD, including local control, representation, funding advocacy, and protection of groundwater rights. By maintaining financial health, the District ensures its continued ability to serve landowners effectively and pursue its mission of achieving long-term groundwater sustainability.

3.1.6. Conclusion

Each budget category is critical to the successful operation of TWD and the delivery of specific and direct special benefits to landowners within the District. By allocating funds to General and Administrative Expenses, Litigation Support, Technical Support, Lobbying and Funding Advocacy, and Reserve, the District ensures a comprehensive approach to managing groundwater resources, advocating for landowner interests, and sustaining the agricultural vitality of the region. TWD’s five-year projected budget is presented in **Table 1** below.

| Five-Year Projected Budget | | | | | |
|-------------------------------------|---------------------|---------------------|---------------------|---------------------|---------------------|
| | Year 1 | Year 2 | Year 3 | Year 4 | Year 5 |
| General and Administrative Expenses | \$445,600.00 | \$461,196.00 | \$477,337.86 | \$494,044.69 | \$511,336.25 |
| Litigation Support | \$75,000.00 | \$75,000.00 | - | - | - |
| Technical Support | \$50,000.00 | \$50,000.00 | \$75,000.00 | \$75,000.00 | \$75,000.00 |
| Lobbying and Funding Advocacy | - | \$50,000.00 | \$75,000.00 | \$75,000.00 | \$75,000.00 |
| Reserves | \$50,000.00 | \$50,000.00 | \$75,000.00 | \$75,000.00 | \$75,000.00 |
| Total | \$620,600.00 | \$686,196.00 | \$702,337.86 | \$719,044.69 | \$736,336.25 |

Table 1: Budget Year 1 through Year 5

4. BENEFITS DETERMINATION

4.1. General

Proposition 218 establishes a clear distinction between general and special benefits. General benefits serve the broader public, such as libraries, parks, or emergency services. In contrast, special benefits confer a unique and direct benefit to specific land or buildings, which extends beyond the general benefits available to the public or those who are not subject to the assessment. This Engineer's Report proposes the implementation of a special benefit assessment. Consequently, this Report identifies all parcels that will receive special benefits and upon which the proposed assessment will be levied, should it be adopted.

The District encompasses predominantly prime agricultural land, where the landowners rely heavily on groundwater for irrigation and domestic water supply. Prior to the formation of TWD, no single entity had the legal authority or collective support necessary to pursue vital groundwater management projects and advocate for long-term sustainability. With the establishment of TWD, parcels within the district receive specific and direct special benefits, including local control, representation, funding advocacy, and the protection of groundwater rights. These benefits are specific to the parcels within the District and do not extend to the general public or to those not assessed. As such, they are classified as special benefits, not general benefits.

4.2. Determination of Benefits

The purpose of this section is to identify and explain the special benefits conferred upon each parcel within the District in proportion to one another. Under Section 4(a) of Proposition 218, assessments cannot "exceed the reasonable cost of the proportional special benefit conferred on that parcel."

The benefit component is determined by the District's anticipated annual expenses. Although the District has not incurred operational expenses prior to 2024 due to its recent formation, it has relied on monetary donations to initiate its operations. The District's operations will now provide benefits to all assessable lands within the District. For the activities covered in the District's initial budget, the Board intends to levy assessments equally across all assessable parcels. This approach is based on the fact that the existence of the District provides a uniform benefit to all parcels within its boundaries, as it creates the organizational scale and resources necessary to implement projects, secure funding to mitigate the cost of SGMA compliance, and defend against external threats and regulatory challenges.

Federal land and parcels owned by Native American tribes within the District's legal boundaries are exempt from the proposed assessment. Therefore, the District encompasses 96,170 assessable acres.

For Year 1, the estimated assessment rate is \$6.45 per acre, which is calculated based on total fixed costs of \$620,600, including a reserve of \$50,000. This assessment rate is to be spread over the approximately 96,170 acres. The District's general and administrative expenses are budgeted for an anticipated 3.5% annual inflation escalation

from Year 1 to Year 5. As such, the maximum assessment rate will reach \$7.66 per acre in 2029. After Year 5, the maximum assessment rate will remain fixed unless further proceedings under Proposition 218 are conducted.

Benefit of Local Control, Representation, Funding Advocacy, and Protection of Groundwater Rights

The District encompasses predominantly prime agricultural land, where the landowners rely heavily on groundwater for irrigation and domestic water supply. Prior to the formation of TWD, no single entity had the legal authority or collective support necessary to pursue vital groundwater management projects and advocate for long-term sustainability.

With the establishment of TWD, each landowner within the District receives specific and direct special benefits, including:

- **Local Control:** A landowner-governed special district with exclusive authority to pursue and implement surface water projects, groundwater recharge initiatives, and demand reductions strategies aimed at achieving long-term groundwater sustainability for the Vina and Butte sub-basins. Furthermore, the TWD's focus on ensuring sustainable water use in compliance with the SGMA makes it a vital mechanism for local control. The District provides a cohesive framework for implementing critical groundwater sustainability projects that benefit landowners.
- **Representation:** TWD landowners are represented in collaboration with Butte County; the Butte County Water Commission; the Vina, Butte, and Rock Creek Reclamation District GSAs; and other state and local entities in the administration of GSPs. This collaboration ensures that TWD's landowners have a voice in the further development of GSP annual and five-year updates, thereby working to protect TWD landowners' long-term water interests. The establishment of formal relationships between TWD and these entities is crucial to achieving collective water management goals.
- **Funding Advocacy:** The District advocates for TWD landowners by securing grants and other funding from local, state, or federal sources to support surface water projects, groundwater recharge initiatives, demand reduction efforts, and other mitigation strategies – ultimately reducing the overall cost of SGMA compliance. During the formation process, LAFCo's assessment of TWD highlighted its role in advocating for external funding, particularly to support sustainability initiatives and to reduce compliance costs for landowners. The District's ability to seek grants and other funding opportunities places it in a significantly better position to manage financial responsibilities under SGMA, thus lowering the financial burden on individual landowners.
- **Protection of Groundwater Rights:** TWD defends landowners' access to groundwater against external threats, such as regulatory challenges and potential encroachments on groundwater rights. One of the core benefits identified in the LAFCo staff report is the protection of landowners' water rights from external pressures and regulatory changes. TWD provides a unified entity capable of defending landowners against potential overreach or new regulations that could otherwise adversely affect groundwater access.

Without TWD, parcels within the District would lack the organizational scale and resources necessary to implement projects and secure critical funding to mitigate the costs of SGMA compliance. Additionally, they would lack the capacity to defend against external threats and regulatory challenges to their groundwater access. These enhancements reinforce TWD's necessity and value for parcels within the District in maintaining groundwater sustainability.

5. PROPOSAL TO INCREASE ASSESSMENTS

Due to the need to generate revenue to support the District’s operations and the specific benefits provided by the District, the TWD Board of Directors has determined that implementing an assessment charge is the most appropriate method for funding the District’s fixed expenses. As the District does not currently levy any assessments, it has yet to collect any revenue from such charges. However, with the District’s fixed expenses projected to reach \$620,600 in Year 1, this proposal outlines the necessary steps for implementing and structuring the assessment to meet operational needs.

5.1. Assessment Structure

To cover fixed costs, the District proposes to impose land-based assessments on all assessable parcels within its boundaries. The maximum proposed assessment charge is specifically dedicated to covering these fixed expenses. In Year 1, the maximum assessment would be \$6.45. As general and administrative expenses are anticipated to increase by an annual inflation factor of 3.5% over the subsequent four years to 2029, the maximum assessment rate would increase in line with the expected costs. As such, in 2029, subject to approval under Proposition 218, the assessment is expected to collect \$736,336 which will be used to recover operational costs. The TWD Board of Directors will have the discretion to determine whether the assessment should be adjusted each year, up to the maximum allowable rate, based on the financial needs of the District. **Table 2**, the Maximum Assessment Rate Schedule for the next five years, is provided below.

| Maximum Assessment Rate Schedule | | | |
|----------------------------------|----------------|------------------|-----------------|
| Year | Fixed Expenses | Assessable Acres | Assessment Rate |
| Year 1 | \$ 620,600 | 96,170 | \$6.45 |
| Year 2 | \$ 686,196 | 96,170 | \$7.14 |
| Year 3 | \$ 702,338 | 96,170 | \$7.30 |
| Year 4 | \$ 719,045 | 96,170 | \$7.48 |
| Year 5 | \$ 736,336 | 96,170 | \$7.66 |

Table 2: Maximum Assessment Rate Schedule (with 3.5% Annual Inflation Increase of General and Administrative expenses)

5.2. Proposed Assessment Roll

Appendix A presents the proposed TWD Assessment Roll (“Roll”), which will serve as the basis for providing notice to each landowner within the District. The Roll identifies each landowner, the parcels they own as recorded in District records, the total assessable acreage, and the proposed assessment for each parcel.

Additionally, the Roll includes the weighted voting allocation for the proposed assessment. Each landowner’s vote is directly related to the maximum annual assessment rate per acre, multiplied by the acreage of their parcel as determined by the Butte County Assessor. The votes (reflecting the maximum annual assessment) are

calculated for each parcel, ensuring proportional voting based on the proposed assessment for each parcel relative to the total assessment across the District.

To pass this Proposition 218 assessment, the returned ballots must represent a weighted majority with 50% plus one vote of the total weighted amount voting in favor of the assessment.

5.3. Proportionality of Special Benefit

Section 4(a) of Article XIII D of the California Constitution mandates that assessments not “exceed the reasonable cost of the proportional special benefit conferred on that parcel.” This Engineer’s Report has determined that parcels within the District – except for certain acreage as acknowledged in [Section 4.2](#) – receive specific and direct benefits that do not extend to the general public or to those not assessed. As all assessable parcels equally benefit from the District’s efforts, there is no variation in the special benefit conferred on each parcel. Therefore, all parcels are equally benefitted by the District’s actions, justifying the uniform assessment rate.

5.4. Conclusion

The primary objectives of the TWD Board of Directors are to ensure that the District’s necessary expenditures are funded by a stable and reliable revenue stream and that these costs are recovered in a fair and equitable manner from the landowners who directly benefit from the District’s operations. To meet these objectives, the District proposes implementing assessments to cover the projected expenses in 2025 and subsequent years.

Approval of the proposed assessment rates will enable the District to pursue and implement critical groundwater projects, engage with regulators, advocate for grants, and defend landowners’ groundwater access against external threats and regulatory challenges. These actions will reinforce TWD’s necessity and value to its landowners by maintaining groundwater sustainability. This Engineer’s Report concludes that the proposed assessment provides a proportional and equitable special benefit to the affected properties, as required by Proposition 218.

6. IMPLEMENTATION PROCEDURES

It is the Engineer's opinion that the proposed assessment structure offers an equitable procedure for TWD to generate revenues for its continued operations. The District plans to initiate an election process in compliance with the applicable provisions of Article XIII D of the California Constitution, which governs the collection of land-based assessments.

The TWD Board of Directors will be asked to:

1. Approve and Accept the Engineer's Report: This report will outline the justification and methodology behind the proposed assessment.
2. Set a Public Hearing: A hearing will be scheduled to present the proposed assessment to landowners, allowing for public input and discussion.
3. Authorize a Proposition 218 Mailed Ballot Election: The Board will authorize mailing notices to affected landowners, informing them of the proposed assessment and including ballots for voting on the assessment.

At the public hearing, the District Board of Directors will review and consider all comments, objections, and questions raised by landowners. After considering these inputs, the Board will tally the ballots received by the close of the hearing.

For the assessment to be approved, a majority of the weighted ballots received must be in favor of the proposal. If the majority of votes support the proposed assessment, the Board will have the authority to implement the assessment and set the annual amount at its meeting in February 2025, provided it does not exceed the Maximum Assessment Rate as described in [Table 2](#), Maximum Assessment Rate Schedule.

Appendix

Appendix A
Assessment Roll for TWD

| APN | Acres | Year 1 | Year 2 | Year 3 | Year 4 | Year 5 |
|-----------------|--------|-------------|-------------|-------------|-------------|-------------|
| 006-010-003-000 | 49.96 | \$ 318.74 | \$ 352.22 | \$ 360.71 | \$ 369.20 | \$ 378.20 |
| 006-010-005-000 | 50.17 | \$ 320.08 | \$ 353.70 | \$ 362.23 | \$ 370.76 | \$ 379.79 |

**TUSCAN WATER DISTRICT
NOTICE OF PUBLIC HEARING
ON A BALLOT PROCEEDING FOR A
SPECIAL BENEFIT ASSESSMENT**

Ballot is Enclosed

The purpose of this Notice is to provide you with information about the assessment ballot proceeding being conducted by the Tuscan Water District (District) and its effect on real property that you own within the District’s boundary. This Notice is being sent to you in accordance with section 53753 of the California Government Code, and section 4(c), Article XIII D of the California Constitution. This ballot election is being held in accordance with Proposition 218, which is a Constitutional Initiative approved by the voters of California in November 1996 and which requires that new or increased assessments be approved by affected landowners.

PUBLIC HEARING INFORMATION

The District’s Board of Directors (Board) will hold a public hearing at **9:00 a.m. on Wednesday, January 15, 2025 at LOCATION** to consider protests, tabulate assessment ballots, and consider the adoption of an assessment to cover the cost of District operations. If you wish to comment on this matter, you are invited to do so at this public hearing.

PURPOSE OF THE ASSESSMENT

The District was formed on February 1, 2024 and does not currently generate any revenue. The District proposes to levy an annual assessment on parcels within its boundaries to cover its fixed costs. These costs include: general and administrative expenses (e.g., staffing and office expenses), litigation support, technical support, lobbying and advocacy, and generating reserve fund dedicated to unforeseen increased costs. If approved, the proposed assessment will be levied in February 2025 and each year thereafter until the District seeks landowner approval to revise the assessment. Further explanation of the need for the proposed assessment, the methodology of its calculation, and how the funds generated will be used can be found in the District Engineer’s Report prepared by Provost & Pritchard Consulting Group. The Engineer’s Report is available on the District’s website at <https://www.tuscanwaterdistrict.org/>.

CALCUATION OF THE ASSESSMENT

With the formation of the District, each parcel within the District receives specific and direct special benefits. The District has identified these benefits as follows:

- **Local Control:** District landowners are governed by a locally managed special district with exclusive authority to pursue and implement surface water projects, groundwater recharge initiatives, and demand reductions strategies aimed at achieving long-term groundwater sustainability for the Vina and Butte Subbasins.
- **Representation:** District landowners are represented in collaboration with Butte County; the Vina, Butte, and Rock Creek Reclamation District Groundwater Sustainability Agencies; and other state and local entities in the administration of groundwater sustainability plans.
- **Funding Advocacy:** District landowners are the beneficiaries of the District’s efforts to advocate for and secure grants and other funding from local, state, or federal sources to support surface water projects, groundwater recharge initiatives, demand reduction efforts, and other mitigation strategies – ultimately reducing the overall cost of Sustainable Groundwater Management Act (SGMA) compliance.
- **Protection of Groundwater Rights:** District landowners and their access to groundwater are defended by the District against external threats, such as regulatory challenges and potential encroachments on groundwater rights.

The proposed assessment levied on each parcel will vary upon the acreage of the parcel. The proposed maximum assessment amount for Year 1 is \$620,600 District-wide or approximately **\$6.45 per acre** based on the District’s current assessable acreage of 96,170 acres. The amount proposed to be assessed on each parcel is provided to the record owner of the parcel on the ballot enclosed with this Notice. Your maximum assessment can be calculated as follows:

$$\text{\$RATE PER ACRE} \times \text{YOUR TOTAL ACREAGE IN DISTRICT} = \text{\$YOUR PROPOSED MAXIMUM ASSESSMENT}$$

The Board will levy the proposed assessment on an annual basis up to the maximum amount specified in the Engineer’s Report. The Board retains discretion to set the assessment below the maximum amount authorized based on total fixed costs. The District calculated the assessment amount using information from its projected budgets over the next five years to 2029, which can be found in Table 1 of the Engineer’s Report. As described in the Engineer’s Report, if approved, the maximum assessment amount may increase annually to meet an anticipated 3.5% inflation increase in the District’s General and Administrative Expenses.

| Maximum Assessment Rate Schedule | | | |
|----------------------------------|----------------|------------------|-----------------|
| Year | Fixed Expenses | Assessable Acres | Assessment Rate |
| Year 1 | \$ 620,600 | 96,170 | \$ 6.45 |
| Year 2 | \$ 686,196 | 96,170 | \$ 7.14 |
| Year 3 | \$ 702,338 | 96,170 | \$ 7.30 |
| Year 4 | \$ 719,045 | 96,170 | \$ 7.48 |
| Year 5 | \$ 736,336 | 96,170 | \$ 7.66 |

ASSESSMENT BALLOT PROCEDURES

Enclosed with this Notice, you will find an Assessment Ballot (Ballot). Please follow the directions listed below and on the Ballot to vote on the proposed assessment. The Ballot may be: (a) returned by mail to the District at **C/O MK Election Services, PO Box 118, Chico, CA 95973**, in the self-addressed, return envelope provided; or (b) hand delivered at the public hearing. Regardless of whether you choose to mail or hand deliver your Ballot, it **MUST** be received no later than the conclusion of the public hearing set for **9:00 a.m. on Wednesday, January 15, 2025 at the LOCATION**.

Note, if your parcel(s) has more than one ownership interest, the various owners may each submit their own ballot. If this is the case, please contact the District to request additional ballots. The District may request documentation to support the authority of any record owner to cast the ballot of any parcel. In the event that all of the separate owners fail to submit their own ballots, the District will tabulate the submitted ballots proportionally to reflect a one hundred percent (100%) vote. For example, if a parcel(s) has five ownership interests and only one ballot is submitted, that ballot will be counted as the vote for all five ownership interests. On the other hand, if the District receives two ballots on the property, one YES and one NO, the District will apportion fifty percent (50%) of that parcel(s)’s vote to YES and fifty percent (50%) to NO.

You may change your vote at any time prior to the conclusion of the public hearing, mentioned above. However, Ballots must remain sealed until the tabulation begins. As a result, regardless of your method of delivery, we ask that you please seal your Ballot in the enclosed return envelope and include your name and address on the envelope so that we can identify your Ballot if needed prior to the close of the public hearing.

A Ballot WILL NOT be accepted or tabulated if it: (1) is unsigned; (2) does not have an original signature; (3) lacks an identifiable "yes" or "no" vote; (4) is not received prior to the close of the public hearing; or (4) appears to have been tampered with or is otherwise deemed invalid based upon its appearance or method of delivery. The District’s consultants will begin tabulating Ballots, including those received during the public hearing, immediately following the close of the public hearing. If necessary, the Board may continue the tabulation and announcement of the results at a different time and/or location. The time and location of any continuance will be announced at the public hearing. Final results will be posted in the District’s office and on the District’s website as soon as practical after the hearing.

The District will not levy the proposed assessment if a majority protest exists. A majority protest exists if, upon the conclusion of the public hearing, ballots submitted in opposition to the assessment exceed the ballots submitted in favor of the assessment. Ballots will be weighted according to the proportional financial obligation of the affected parcel as reflected in the amount of the proposed assessment for that parcel. The amount of the proposed assessment for the affected parcel is then multiplied by 100 to produce whole number values for ease of ballot counting. For instance, if a parcel of 10 acres has a financial obligation of \$64.50, then its ballot will be weighted to equal 6,450.

Notice is further given that a copy of the preliminary assessment roll is available for public inspection. Objections to the assessment roll or charges established for the respective parcels of land in accordance with the assessment methodology described above will also be heard at the public hearing on January 15, 2025. No assessment payments are due at this time. If the assessment is approved, bills will be included on the property tax roll or mailed to landowners at a later date. If you would like to view a copy of the preliminary assessment roll or have any questions, please call or write to: Tovey Giezentanner, General Manager, at (530) 487-0139 or info@tuscanwaterdistrict.org.

Dated: **DATE**

Tuscan Water District

Official Ballot

0132404

Name of Record Owner: SAMPLE VOTER
 Assessor's Parcel Number: 123-456-7890
 Acreage of this or these Assessor's Parcel(s): 25
 Proposed Maximum Assessment, up to: \$25.00 per acre
 Total proposed maximum assessment: \$625.00
 Weight of this Ballot for counting purposes: 62500

Please indicate your support or opposition to the proposed assessment by answering the following question:

Shall the Tuscan Water District be authorized to levy an annual special benefit assessment on all land within the District as described in the Public Notice and Final Engineer's Report, to generate sufficient annual revenue for the ongoing operation of the District in an amount not less than \$445,600 per year?

The proposed maximum assessment amount for Year 1 is \$620,600 District-wide, which is approximately \$6.45 per acre based on the current assessable acreage of 96,170 acres.

The assessment levied on each parcel will vary based on acreage. The Board will levy the assessment annually up to the maximum amount specified in the Engineer's Report and retains discretion to set the assessment below the authorized maximum based on total fixed costs.

If approved, the maximum assessment amount may increase annually to accommodate an anticipated 3.5% increase in the District's General and Administrative Expenses during the first five years; thereafter, the maximum assessment will remain unchanged unless further approved through a Proposition 218 process.

This assessment will fund the District's anticipated expenses, including General and Administrative Expenses, Litigation Support, Technical Support, Lobbying and Funding Advocacy, and a Reserve, providing specific and direct special benefits to each landowner such as Local Control, Representation, Funding Advocacy, and Protection of Groundwater Rights.

- Yes (Approve the special benefit assessment)
- No (Do not approve the special benefit assessment)

Signature of record owner or authorized representative

(IMPORTANT: If authorized representative, please complete authorization in box to the right.)
Ballots NOT signed will not be counted.

INSTRUCTIONS FOR FILLING OUT THIS BALLOT

1. After reviewing the enclosed materials, mark the appropriate circle next to your choice (either “yes” or “no”) on the ballot by completely filling in the circle like this: ●. You may change your vote at any time prior to the conclusion of the public hearing, scheduled for **9:00 a.m. on Wednesday, January 15, 2025 at Chico, CA.**
2. Sign your name in the designated area on the ballot.
3. Place the ballot into the return envelope provided. Seal the return envelope and mail. No postage is necessary if mailed within the United States. You may also hand-deliver your ballot to the Board of Directors during the public hearing.
4. Ballots will not be opened until the conclusion of the public hearing. Votes will be weighted according to the proportional financial obligation on the affected property.
5. A ballot **WILL NOT** be accepted or tabulated if it: (1) is unsigned; (2) does not have an original signature; (3) lacks an identifiable "yes" or "no" vote as indicated by filling in the circle; (4) is not received prior to the close of the public hearing; or (5) appears to have been tampered with or is otherwise deemed invalid based upon its appearance or method of delivery.
6. If you lose or destroy your ballot, you may request a replacement ballot by calling MK Elections at 209-259-6740 by January 8, 2025. A replacement ballot may also be obtained at the public hearing.

If you have any questions, please email Tovey Giezentanner at info@tuscanwaterdistrict.org or call (530) 487-0139.

STAFF REPORT – ITEM 5

TO: Board of Directors, Tuscan Water District

FROM: Tovey Giezentanner, General Manager

DATE: October 16, 2024

SUBJECT: Consideration and Appropriate Action Regarding Support for Rock Creek Reclamation District's Stream Bed Alteration Permit

Background:

The Rock Creek Reclamation District (RCRD) is working to secure a Stream Bed Alteration Permit from the California Department of Fish and Wildlife (CDFW) for critical infrastructure improvements on Rock Creek and Keefer Slough.

This project is vital for maintaining flood protection for thousands of acres of farmland, ensuring public safety, and safeguarding regional water resources. With the rainy season approaching, timely approval of the permit is crucial to avoid environmental impacts such as erosion, sedimentation, and increased flood risk, which could affect both water management and agricultural activities.

The Tuscan Water District (TWD) supports RCRD's efforts and is prepared to submit a letter requesting that the CDFW expedite the review and approval of RCRD's permit application, citing the importance of completing the work before significant rainfall begins. The letter would emphasize the urgency of protecting agricultural land, local water resources, and the overall health of the watershed.

Recommended Action:

Direct staff to continue discussions with the Rock Creek Reclamation District Board and authorize the submission of a support letter, if requested by the RCRD Board, to the California Department of Fish and Wildlife for the expedited review of RCRD's Stream Bed Alteration Permit.

Attachment:

- Draft TWD Support Letter

October 16, 2024

California Department of Fish and Wildlife
Northern Region Office
601 Locust Street
Redding, CA 96001

Re: Request for Expedited Review of Rock Creek Reclamation District's Stream Bed Alteration Permit Application (Project No. [Insert Project No.])

Dear [NAME]:

The Tuscan Water District (TWD) is writing to express its strong support for the Rock Creek Reclamation District's (RCRD) efforts to secure a Stream Bed Alteration Permit for critical infrastructure work on [insert project details, e.g., Rock Creek]. This project is of vital importance to the community and the agricultural region that both RCRD and TWD serve.

As you are aware, Rock Creek, Keefer Slough and the surrounding levee and infrastructure play an important role in providing flood protection to thousands of acres of farmland, protecting public safety by mitigating flood risks, and ensuring the overall health of the regional watershed. However, with the approaching rainy season, there is an urgent need for RCRD to complete work under this permit before the onset of significant precipitation. Delays in the permit review and approval process could potentially lead to adverse environmental impacts, including erosion, sedimentation, and increased flood risk, all of which could disrupt critical water management activities and harm agricultural production.

Given the urgency of the situation and the potential consequences of further delays, TWD respectfully requests that the Department of Fish and Wildlife expedite the review and approval of RCRD's permit application to enable the District to begin work immediately. We believe that prioritizing this review will help safeguard the environment, protect local water resources, and ensure the long-term sustainability of our agricultural communities.

TWD values our partnership with the California Department of Fish and Wildlife and appreciates your agency's ongoing commitment to preserving California's natural resources. We hope that you will consider the time-sensitive nature of this request and work with RCRD to ensure the necessary permits are issued promptly.

Thank you for your attention to this matter. Please do not hesitate to contact me at [insert phone number] or [insert email] should you require any additional information or wish to discuss this request further.

Sincerely,

President
Tuscan Water District
